

1. Key data from the June 2026 Household Affordability Index

The June 2026 Household Affordability Index, which tracks the prices of 44 basic foods from 52 supermarkets and 36 butcheries, in Johannesburg (Soweto, Alexandra, Tembisa and Hillbrow), Durban (KwaMashu, Umlazi, Isipingo, Durban CBD, Hammarsdale and Pinetown), Cape Town (Khayelitsha, Gugulethu, Philippi, Langa, Delft and Dunoon), Mthatha (Eastern Cape), Pietermaritzburg (KwaZulu-Natal), Springbok (Northern Cape), and Mtubatuba (Northern KwaZulu-Natal), shows that:

- **In June 2026:** The average cost of the Household Food Basket is **R5 502,42**.
- **Month-on-month:** The average cost of the Household Food Basket **increased** by **R23,15 (0,4%)**, from R5 479,26 in May 2026 to R5 502,42 in June 2026.
- **Year-on-year:** The average cost of the Household Food Basket **increased** by **R59,29 (1,1%)**, from R5 443,12 in June 2025 to R5 502,42 in June 2026.

2. Food pricing trends in June 2026.

In June, of the 44 foods tracked in the basket: 24 foods increased in price, and 20 foods decreased in price (See page 2 of June 2026, Household Affordability Index).

Below are the month-on-month price movements of individual foods in the average household food basket:

Foods in the basket which increased in price in June 2026 by 5% or more, include: onions (17%), chicken feet (6%), chicken livers (5%), tomatoes (9%), carrots (15%), and green pepper (8%).

Foods in the basket which increased in price in June 2026 by 2% or more, include: sugar beans (4%), samp (3%), soup (2%), *Maas* (2%), canned baked beans (3%), and apples (2%).

Foods in the basket which decreased in price in June 2026, by 5% or more, include: bananas (-7%), and oranges (-18%).

Foods in the basket which decreased in price in June 2026, by 2% or more, include: maize meal (-2%), potatoes (-2%), frozen chicken portions (-3%), stock cubes (-2%), wors (-4%), butternut (-4%), *cremora* (-2%), polony (-2%), and apricot jam (-2%).

3. Inflation on the food baskets per area tracked.

In June 2026, food baskets increased in price in: Durban (R64,86), Cape Town (R75,29), Springbok (R133,98), and Mtubatuba (R25,18). Food baskets decreased in Joburg (-R9,99), Pietermaritzburg (-R122,51), and Mthatha (-R85,08).

(See pages 8-15 for area specific data, in the June 2026, Household Affordability Index).

4. Statistics South Africa's Consumer Price Index and Producer Price Index.

Statistics South Africa's latest *Consumer Price Index* for May 2026¹ shows that **Headline inflation was 4,5%**, and for the **lowest expenditure quintiles 1-3 it is 2,3%, 2,5%, and 2,7%** respectively. **CPI Food & non-alcoholic beverages inflation was 0,1% month-on-month and 1,9% year-on-year**. STATS SA's *Producer Price Index* for May 2026² shows **Agriculture was -7,4%**, of which, **Products of crops and horticulture was -15,4%**, and **Live animals and animal products was 3,2%**.

¹ STATSSA (2026). **Consumer Price Index May 2026**. Statistical release P0141. 17 June 2026. Statistics South Africa. Pretoria. P3, 6. See Link: <https://www.statssa.gov.za/publications/P0141/P0141May2026.pdf>

² STATSSA (2026). **Producer Price Index May 2026**. Statistical release P0142.1. 25 June 2026. Statistics South Africa. Pretoria. P12. See Link: <https://www.statssa.gov.za/publications/P01421/P01421May2026.pdf>

5. Workers and The National Minimum Wage

The National Minimum Wage is R30,23 per hour, R241,84 for an 8-hour day, and R5 078,64 for an average 21-day working month.

In June 2026, with **21 working-days**, the maximum National Minimum Wage for a General Worker is **R5 078,64**. Workers work to support their families. The wage workers earn is not just to sustain themselves alone, it is used to support the entire family. For Black South African workers, **one wage typically must support 4 people**. The maximum wage of **R5 078,64** when disbursed in a **family of four persons is R1 269,66**. This is **below the National Upper-Bound Poverty Line of R2 846 per capita per month**, and **below the National Lower-Bound Poverty Line of R1 415 per capita per month** (in May 2025 prices).³

On our calculations, electricity, and transport will take up **R3 197,85 (63,0%)** of a worker's wage in June 2026 (R2 016,00 for transport and R1 181,85 for electricity).

After paying for transport and electricity, workers are left with **R1 880,79**.

Food is bought after monies for transport and electricity have been paid for or set aside.

The June 2026 average cost of a basic nutritional food basket for a family of four persons is **R3 836,78** (See page 5 of June 2026, Household Affordability Index).

The minimum shortfall on food for a workers' family in June 2026 is **51,0%** (a shortfall of R1 955,99 on a basket of nutritional food costing R3 836,78). **If all the remaining money (R1 880,79) went to buy food, then for a family of 4, it would provide R470,20 per person per month. This is 45% below the National Food Poverty Line of R855 per person per month.** Note that: the Food Poverty Line is a monetary-based threshold below which a person cannot consume enough food to meet their minimum daily energy requirements. (See page 7 of June 2026, Household Affordability Index).

Note: Taxi fares have now been adjusted for the June 2026 Household Affordability Index. Local taxi fares in all areas tracked for the Household Affordability Index increased by R2, R3, R4 and R5 between March 2026 and June 2026. Local fares average between R18 to R25. For the National Minimum Wage calculations, we use the Pietermaritzburg fares as a proxy as these fares accurately reflect the areas tracked in our Index, and provide real figures on which to peg our data. In June 2026, Pietermaritzburg fares increased by 20% from R20 to R24. Workers typically take 2 taxis to work and back (one taxi to the local taxi rank, and one taxi to work; return), with a daily fare cost of R96 (R24 x 4).

*Transport to work and back is a major expense, and now with the adjusted fares, constitutes an 39,7% (R2016,00) monthly spend off the National Minimum Wage in June 2026. **Increases in transport fares directly decrease the amount of money in workers pockets to spend on food, as paying taxi fares are a non-negotiable expense.** Workers have to pay for transport to get to work, to get paid; this leaves less money to buy proper nutritious food for workers and their families.*

6. Women and children: the Child Support Grant

In June 2026, the average monthly cost to feed a child a basic nutritious diet was **R977,52**. Over the past month, the average cost to feed a child a basic nutritious diet **increased** by **R10,43 (1,1%)**. Year-on-year, the average cost to feed a child a basic nutritious diet **increased** by **R6,63 (0,7%)**. See page 5 of June 2026, Household Affordability Index.

In June 2026, the **Child Support Grant** of **R580 per month** is **32% below the National Food Poverty Line of R855 per month** (in May 2025 prices), and **41% below** the average monthly **cost to feed a child a basic nutritious diet (R977,52)**.

³ STATSSA (2026). **National Poverty Lines 2025**. Statistical Release P0310.1. 29 January 2026. Statistics South Africa. Pretoria. P3. See link: <https://www.statssa.gov.za/publications/P03101/P031012025.pdf>

7. PMBEJD's Basic Nutritional Food Basket for families

As financial and economic circumstances worsen, so too does household health and nutrition. The gap between what women are able to buy for their families and what they need to buy for proper nutrition widens.

The Basic Nutritional Food Basket, is a basket designed by a Registered Dietician and includes foods which does constitute proper and healthy nutrition, unlike the Household Food Basket, which does not.⁴ The Basic Nutritional Food Basket ensures that current food expenditure (severely limited by affordability constraints) is not conflated with the food expenditure required to secure proper nutrition. Read together with the *Household Food Basket*, the *Basic Nutritional Food Basket* assists to provide a more comprehensive picture of the economic situation and food crisis South African households face. *Table 1*.

Table 1: June 2026: The Basic Nutritional Food Index: household sizes 4, 5 &7.

By number of family members	Index 2025/26			change in Rands		change in %	
	Jun_2025	May_2026	Jun_2026	May 2026 vs. Jun 2026	Jun 2025 vs. Jun 2026	May 2026 vs. Jun 2026	Jun 2025 vs. Jun 2026
Four (4)	R3 809,26	R3 795,23	R3 836,78	R 41,55	R 27,52	1,1%	0,7%
Five (5)	R4 812,49	R4 797,12	R4 848,80	R 51,68	R 36,31	1,1%	0,8%
Seven (7)	R6 652,25	R6 634,22	R6 705,31	R 71,09	R 53,06	1,1%	0,8%

Month-on-month: The cost of a **basic nutritional food basket for a family of 7 members increased** by **R71,09 (1,1%)** from R6 634,22 in May 2026 to R6 705,31 in June 2026.

Year-on-year: The cost of a **basic nutritional food basket for a family of 7 members increased** by **R53,06 (0,8%)** from R6 652,25 in June 2025 to R6 705,31 in June 2026.

In June 2026, *The Basic Nutritional Food Basket*, using the same household size (7) as tracked by the Household Food Basket, is **R6 705,31**. This shows that the difference in cost between the foods which families living on low incomes try and buy each month (a household food basket) and the foods which families would like to buy and should buy to meet basic nutrition (a basic nutritional food basket) was **R1 202,89** (R5 502,42 vs. R6 705,31).

It shows that as at June 2026, families living on low-incomes may underspend on basic nutritional food by a minimum of 18% (R1 202,89). It means that the nutritional health and wellbeing of households is far worse than that shown by the Household Food Basket, and that the economic situation households face, with its attendant food crisis in homes is much deeper (*See page 5 of June 2026, Household Affordability Index*).

⁴ The Basic Nutritional Food Basket includes a greater variety of better quality nutritionally-rich foods and in higher quantities to provide a family with a basic but nutritionally complete monthly diet. The basket can be amended to respond to families of various sizes, genders, ages and life stages through its connection to four "energy groups." Food price data for the Basic Nutritional Food Basket is collected with the Household Food Basket and conforms to the same methodology. *See page 5 of April 2026, Household Affordability Index.*
